SUMMARY

Web Developer with 7+ years of experience in building and optimizing WordPress and WooCommerce platforms. Specialized in custom theme development and responsive design, leveraging AI tools to enhance coding efficiency and site performance while maintaining clean, modular code.

EXPERIENCE

Rankworks - Web Developer

Pointe-Claire, Canada | 11/2023 - 06/2026

- Customized WordPress theme files and extended WooCommerce functionality using hooks, filters, and Advanced Custom Fields (ACF) to meet project requirements while minimizing reliance on plugins.
- Developed responsive layouts with Oxygen Builder and Elementor, complemented by manual CSS/HTML for tailored UI components.
- Workflow Automation & AI Integration: Leveraging AI tools to expedite code generation, automate boilerplate tasks, and debug complex scripts, significantly increasing development throughput and efficiency.

RocketMedia360 - Web Developer

Montréal, Canada | 08/2022 - 11/2023

- Custom WordPress Development: Developed full sites from scratch using Avada and Flatsome (UX Builder) with manual theme integration and feature implementation to deliver tailored client solutions.
- Responsive Implementation: Created manual media queries and CSS overrides to ensure consistent user experience across all device breakpoints.
- QA & Troubleshooting: Conducted acceptance testing on new features and resolved functional issues on sites built with WPBakery and Divi to maintain site performance.

EDS FZE - Web Developer

Dubai, UAE | 06/2017 - 04/2019

- Modified legacy WordPress themes and built custom plugin features via ACF by editing PHP and JS.
- Customized complex website layouts using WPBakery and Divi to effectively meet evolving client design requirements.
- Maintained MySQL databases, managed indexing, and implemented security patches to ensure optimal site performance.
